

Relationships Policy

Policy Statement

Guardian Angels' School affirms God's presence in all people. As a result we acknowledge our sacred and relational nature and commit ourselves to developing a community which releases energy in love and trust rather than fear and doubt.

We aim to be a supportive, caring community, encouraging and challenging each other to fullness of life in Christ.

Values

Respect. We accord dignity, respect and honour to all human beings as people made in the image and likeness of God.

Unity in our diversity. We find beauty and strength in those things we share with all people as well as those ways in which we are unique.

Trust. We believe in the gifts within each and every person and have faith that life brings learning opportunities every day. We are a hope-filled community.

Service. We use our power, in all humility, to make a positive difference in the lives of others, especially the most vulnerable.

Responsibility. We give our best and accept responsibility for what we do, or fail to do, both as individuals and in community.
